PROFESSIONAL SUMMARY

Backend Software Engineer with 1+ years building Java Spring Boot microservices for 5,000+ users. Delivered 40% performance improvements through Redis caching, automated 70% of incident responses, and built real-time monitoring systems processing 50,000+ daily API requests with 99.9% uptime.

TECHNICAL SKILLS

Languages: Java (8/11/17) • Python • JavaScript • C++ • SQL • C • R
Frameworks: Spring Boot • Spring WebFlux • Spring Security • Microservices • REST APIs • Vert.x • React.js
Databases: MySQL • MongoDB • Redis • InfluxDB • Elasticsearch
Tools & DevOps: Git • Docker • Maven • JIRA • JPA • JDBC • Kafka
Practices: Agile/Scrum • CI/CD • Unit Testing • Code Reviews • Technical Documentation

PROFESSIONAL EXPERIENCE

Software Engineer **Aug 2024 – Present**
Merck KGaA *Full-time*

- Delivered end-to-end feature development with complete ownership of lifecycle from requirements to production handoff
- Participated in production deployments and critical hotfixes, resolving live incidents within SLA to maintain 99.9% uptime
- Reduced database load by 40% and API latency from 2s to 500ms by implementing Redis caching strategy
- Developed real-time monitoring dashboard using Spring WebFlux and SSE, processing 50,000+ daily requests
- Automated incident response system with IT4YOU integration, reducing manual intervention by 70%
- Mentored junior developers through code reviews, establishing Spring Boot best practices for team of 15+ engineers

Software Engineering Intern **Jan 2024 – Aug 2024**
Merck KGaA *Internship*

- Developed 25+ RESTful APIs using Java and Spring Boot, serving 10,000+ users across 8 business-critical platforms
- Designed microservices components with MySQL, InfluxDB, and Elasticsearch for scalable data access patterns
- Achieved 95% code quality through comprehensive unit testing and peer code review participation
- Collaborated with cross-functional teams on API design, integration testing, and sprint planning activities

KEY PROJECTS

Central Monitoring Platform (CMP) **Jan 2024 – Present**

Tech Stack: Java • Spring Boot • Microservices • Redis • MySQL • InfluxDB • Elasticsearch • Kafka

- Built enterprise monitoring dashboard providing real-time health metrics for 200+ critical applications
- Implemented role-based access control using Spring Security, managing 1,000+ stakeholder permissions
- Developed Spring WebFlux SSE pipeline delivering real-time updates across 100+ screens with sub-second latency
- Built Kafka-based notification service integrating with ticketing systems for centralized alert management

AI-Powered Safety Assistant **Jun 2024 – Present**

Tech Stack: Python • LangChain • NLP • RAG Architecture • Model Context Protocol

- Developed voice-enabled AI assistant for hands-free access to 1,000+ Safety Data Sheets in laboratory environments
- Migrated to Model Context Protocol architecture, improving modularity by 60% and reducing deployment time by 45%
- Designed RAG pipeline for intelligent document retrieval serving 200+ users with 90%+ accuracy

AI Coding Assistant **Mar 2024 – Sep 2024**

Tech Stack: Python • LangChain • Machine Learning • NLP

- Developed LLM-powered code generation tools using LangChain in Jupyter notebooks
- Created bug detection system by integrating LLMs with custom analysis tools
- Built code quality analysis workflows connecting LLMs to existing codebases for automated reviews

EDUCATION

Bachelor of Technology in Computer Science **2025**
Lovely Professional University, Punjab, India CGPA: 7.7/10.0

Relevant Coursework: Data Structures • Algorithms • Database Systems • Software Engineering • System Design

Higher Secondary School Certificate **2020**
Narayana Junior College, Vijayawada, India Percentage: 96.5%

Secondary School Certificate **2018**
Narayana School, Guntur, India CGPA: 10.0/10.0

CERTIFICATIONS & ACHIEVEMENTS

- Java Spring Boot & Spring Reactive Certification** – FreeCodeCamp (2024)
- Generative AI Certification** – FreeCodeCamp (2024)
- Competitive Programming:** Top 5% globally – LeetCode (1600+) • Codeforces (1300+) • CodeChef (1400+)
- Promoted from Intern to Full-time Engineer within 12 months based on exceptional technical contributions
